Ready-to-Eat
A cool way to clean

Fresh clean solutions
Superior products and innovations for the ready-to-eat industry
A Unique and Total Solution

Chemetall’s dedicated, focused, and accountable experts, along with our vast product line, drive the delivery of the most cost-effective and comprehensive solutions available for the ready-to-eat industry.

Benefit from our experience

- Superior chemistries.
- Commitment to quality and regulatory compliance.
- Customized equipment solutions.
- Outstanding support.
- Training.

In addition, Chemetall is committed to sustainability in our products, practices, and processes. Our social and environmental responsibility fuel the cultivation of innovative technologies and services for a brighter tomorrow.

Superior chemistries

Two missions guide our work:
- Innovation through continuous research and development.
- Expert technical support for you, our valued customer.

Our complete line of customized chemistries include cleaners (alkaline and acid), EPA-registered sanitizing compounds, and conveyor lubricants.

Commitment to quality and regulatory compliance

Challenging industry regulations require constant updating and monitoring. Our Environmental, Health, Safety, and Quality groups:
- Ensure that our products are compliant and our production facilities are safe.
- Provide on-going training.
- Manage Kosher and ISO certification compliance.
Customized equipment solutions

Our solutions include:
- Customized systems and controls for your application.
- Chemical feed, proportioning, and conveyor lubrication systems.
- Data acquisition options.

Outstanding support

Our experienced technical field service support:
- Provide regular service calls.
- Perform titration checks and evaluate processes and equipment during each visit.
- Ensure that your production, sanitation, and record-keeping processes meet the required standards.

Our skilled and experienced analysts:
- Employ the latest in spectroscopy and chromatography to identify contaminants and solutions.
- Provide customized troubleshooting support as needed by utilizing various analytical techniques.

Training programs

Chemetall values safety. We provide training and documentation in English and Spanish, to support:
- Safe product handling and usage.
- HazComm and GMP.
- Customer requirements for laminated, color-coded, bilingual safety charts and secondary labels.
Cleaners and sanitzers — Complete food safety solutions!

Chemetall's commitment to sustainability

Chemetall defines success by developing and optimizing sustainability in our products, practices, and processes. This commitment to social and environmental responsibility allows Chemetall to cultivate innovative technologies and services that lead to a brighter tomorrow.

Think Clean… Think Chemetall!

We have more than a century of experience under the Oakite brand and we offer a full range of sanitation solutions for the ready-to-eat industry. Our goals extend far beyond supplying the highest quality cleaners to sanitize your production facility — we also enable you to increase operational productivity and focus more on your business. Our products and technical support will make your processes faster, easier, safer, and more efficient.

With a strong collaboration between engineers (application and equipment) and in-field chemists, Chemetall is able to create the cleaning programs and chemistries for each and every detail of the sanitation process. Each process is unique and so is our solution. We are equipped to handle both large and small cleaning operations including:

- Clean-In-Place (CIP)
- Clean-Out-of-Place (COP)
- Foam
- Manual
